Gold Strong, Silver Flying!

- Is this the long awaited silver bull run? Possibly, but at this stage it's too early to tell. All eyes will be on silver during December.
- Gold also increased in price in the last week of November. Will it exceed the record set on 17 October of \$4,380 per ounce? That's another 3% on present prices; quite easily achievable thanks to the expected U.S. interest rate cut in December.
- **Conclusion:** Both gold and silver are in *BULL MODE* for December. Sellers will realize good profits when cashing in, while buyers have nothing to lose.
- **Glen, Ellis, Natasha & Griselda wish you all a Merry Christmas.**
